ABOUT THE COMPANY

A/S N.P. Trucks is a total supplier of forklift trucks, truck mounted forklifts, terminal tractors, reach stackers, access equipment and interior handling equipment.

We are a family owned company with more than 40 years of experience within sale, renting and service of forklift trucks. Our daily motivation is the personal relationship that we maintain to our customers.

Over the years, we have extended our range of products to contain everything from pallet trucks to big reach stackers. We are ready to help you with every kind of need.

Every year we sell about 400 used forklift trucks. If you for instance only need a forklift truck with rare intervals or have a limited need, this can be the perfect solution for your company.

We are small enough to be flexible and on the other side, we are big enough to deliver forklift trucks for all purposes.

CORE COMPETENCES

Sale, service and repair of forklift trucks.
